

sa halos lahat ng choice na pinipili ko sa buhay, gusto ko palaging inaaply yung "calculated risk", pero isa ka sa mga bagay na kahit wala pang kasiguraduhan sa umpisa, pinili ko na.

happy 17th birthday, my love ! hehe, honestly hindi ko alam if this message can truly convey the feelings, the thoughts that i want you to feel, pero this is me trying, hehe. i wouldn't be so concerned abt grammar bcs i want it to be as authentic as possible... i love you !

17 na ikaw love, ang swerte ko na nakilala ko ikaw sa buhay na 'to, hindi ko alam paano ko pa ipararating kung gaano ko ikaw kamahal, ang wish ko lang para sa'yo, sana lahat ng birthdays mo, palaging big deal, sana lahat ng birthdays mo, nakangiti ikaw, hindi man maging perfect lahat, pero gagawan at gagawan natin ng paraan 'yan. i hope you enjoy this day, and the following days ofc. tandaan mo love na you're special, you're loved, you're always being remembered.

may this day proves to you na maraming magmamahal sa'yo (pero i believe mas mahal ko ikaw, do u concur? hehe) muli, happy birthday sa'yo my eiyhana ! i wish all the best, please know na never akong mawawala sa tabi mo, palagi lang akong nandito for you, regardless of the situation. okay? always together.

for better and for worse? hehe ofc oo naman, pero in the future may context na 'yan

happy birthday, my love ! i love you !
